

RECONSTRUCTION: SEEING IS BELIEVING

Technical Reconstruction Drivers View

SCENE RECONSTRUCTION

By utilising Draftech's system, we can turn evidence into visual solutions to simplify complex proceedings by digitally recreating a three-dimensional (3D) environment from two-dimensional (2D) images, information, or videos and extracting depth, shape, and spatial data to construct an accurate representation of the scene, providing you with a powerful explanatory tool.

COURTROOM ANIMATIONS

BIM's comprehensive digital representation of a building project allows lawyers, judges, and juries to visualise complex construction scenarios, identify potential issues, and analyse evidence more efficiently. With the power of BIM, our team can provide accurate and objective

CASES

- Road Traffic Accidents
- Fires
- Personal Injury
- Workplace Health and Safety
- Architectural and Construction claims and defects
- Medical Malpractice

OUR SERVICES:

- ▶ RECONSTRUCTION
- ▶ BIM MANAGEMENT
- ▶ SPECIALISED PROJECT SYSTEMS
- ▶ DESIGN DRAFTING
- ▶ REVIT DRAFTING
- ▶ AS BUILTS
- ▶ AUTOCAD DRAFTING
- ▶ MEP COORDINATION
- ▶ BUILDING COORDINATION
- ▶ INSTALLATION DRAFTING
- ▶ SCHEDULING
- ▶ PREFABRICATION
- ▶ 3D ANIMATIONS
- ▶ 3D IMAGES AND RENDERS
- ▶ SCAN TO BIM
- ▶ SOLAR PANEL DRAWINGS
